PROJECTS

CARE-OSA (care-osa.runasp.net, github.com/Protocol-4/CARE-OSA)

Jan 2026 – Present

- Developed a full-stack web application using React, TypeScript, and Tailwind CSS to digitize university document requests and workflows.
- Automated official document generation and real-time status tracking via an ASP.NET Core (.NET 9) backend and PostgreSQL (Supabase) database.
- Integrated a custom-grounded AI chatbot, OCR processing, and QR code generation to enhance student assistance and document security.

VCSmashers (vcsmashers.vercel.app, github.com/kerbyllamosocruz/VCSmashers)

Sept 2025 - Dec 2025

- Developed a responsive web application using HTML, JavaScript, and Tailwind CSS to digitize badminton and pickleball court reservations and facility management.
- Automated real-time slot availability tracking and booking confirmations via a custom PHP backend and MySQL database.
- Integrated the PayMongo API for secure payment processing and an OTP-based authentication system to enhance user convenience and account security.

BASK CAFÉ (bask-cafe.vercel.app, github.com/kerbyllamosocruz/bask-cafe.vercel.app)

Feb 2025 - May 2025

- Developed a responsive web application for a local café using PHP and JavaScript to showcase offerings and handle customer inquiries.
- Implemented a secure administrative dashboard and a serverless TiDB (MySQL) database to manage testimonials and contact forms.
- Deployed the platform to Vercel utilizing serverless PHP functions and REST APIs to ensure a seamless, high-performance user experience.

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, Python, PHP, SQL, C#, Java,
- **Framework:** React, Tailwind CSS, ASP.NET
- **Tools:** Git, Github, Swagger, Visual Studio Code, Figma, Android Studio, Unity

EDUCATION

Bachelor of Science in Information Technology

2023 – Present

Pamantasan ng Lungsod ng Valenzuela

Dr. Pio Valenzuela Scholarship Grantee Batch 26
